Education

- B.K. Birla College of Arts, Science & Commerce, Kalyan**, MSC in Information Technology June 2022 – May 2024
- CGPA: 9.00/10.00
- B.K. Birla College of Arts, Science & Commerce, Kalyan**, BSC in Information Technology June 2019 – Apr 2022
- CGPA: 8.97/10.00

Experience

-
- Frontend Web Developer Intern**, Nuwebwave Technologies Pvt Ltd– Mumbai Aug 2024 – Present
- **Led frontend enhancements and multi-page updates** for dynamic websites using HTML, CSS, JavaScript, and Core PHP, ensuring responsive design and seamless user experiences across devices.
 - **Collaborated with clients** to implement custom features on their websites, improving UI/UX and aligning with their branding goals while maintaining SEO and performance standards.
 - **Automated manual processes through custom PHP scripting**, reducing **70%** of manual workload, increasing productivity, and streamlining website content management.

Training & Certification

-
- Full Stack Development**, Learning360 Academy– Thane
- Completed 6-month hands-on training in **MERN stack** development: **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
 - Built and deployed real-world full-stack projects with secure authentication, **API integration**, and responsive design.
 - Practiced **Git version control**, component-based architecture, and performance-focused **UI** development.

Skills

-
- **Languages:** JavaScript, HTML, CSS, PHP
 - **Frameworks & Libraries:** React.js, Redux, Node.js, Express.js, Bootstrap
 - **Databases & APIs:** MongoDB, REST APIs, Stripe, JWT
 - **Tools & Concepts:** Git, GitHub, GitLab, Responsive Design, UI/UX, Authentication

Projects

-
- Full-Stack E-Commerce Web Application** [GitHub](#) | [Link](#)
- Developed **MERN** stack e-commerce platform with **JWT**-based authentication to simulate secure user login and product browsing workflows.
 - Implemented **Stripe** payment integration using **RESTful APIs**, testing seamless checkout functionality in a development environment.
 - Designed a responsive **admin** dashboard with **React.js** and Node.js to explore product management and order tracking features.

- Task Manager Web Application** [GitHub](#) | [Link](#)
- Built a practice **MERN** stack task manager with JWT authentication, enabling simulated **CRUD** operations for task management.
 - Created a responsive **React.js** UI with component-based architecture, optimizing MongoDB queries for efficient data retrieval in testing.
 - Implemented role-based access control using Express.js to learn secure, user-specific task management techniques.

- Portfolio Website** [GitHub](#) | [Link](#)
- Developed React.js portfolio website to showcase projects and skills with a responsive, user-friendly UI.
 - Applied React **Router** and modern **UI/UX** principles to achieve seamless navigation and cross-device compatibility in development.
 - Optimized performance through code-splitting, enhancing load times during local testing of the application.
