HTML | CSS | Javascript | Bootstrap | React Js | Redux | MongoDB | NodeJs | Express Js

Work Experience

NuWebWave Technologies pvt ltd Frontend Developer Intern	Aug'24 – Present
<ul style="list-style-type: none">• Managed and optimized 5+ client websites, focusing on updates, feature additions, and performance enhancements, achieving a 20% improvement in page load speed and a 15% increase in organic traffic through SEO-friendly practices like metadata optimization and mobile responsiveness.• Developed PHP scripts to automate the creation and modification of multiple web pages in a single execution, reducing manual effort by 50% and streamlining website management processes for bulk updates.• Collaborated with cross-functional teams to enhance website functionality, user engagement, and overall performance, ensuring seamless and efficient project delivery.	
Learning360 Academy Frontend Developer Intern	Nov'23 - May'24
<ul style="list-style-type: none">• Developed responsive and interactive web pages using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and mobile-friendly designs.• Built dynamic web applications using React.js, implementing components, state management (useState, useEffect), and routing to enhance functionality and user experience.• Developed high-quality, user-friendly websites and applications using modern frontend technologies, ensuring fast performance and a smooth experience for users.	

Projects

Full-Stack E-Commerce Website (MERN Stack) | [Deployment Link](#) | [Source Code](#)

- Built a dynamic **E-commerce** site with cart functionality, product showcase, and secure **user authentication** (login/signup).
- Leveraged **MongoDB** for data storage, **Express.js** and **Node.js** for back-end logic, and **React** for a responsive front-end.
- Created an **Admin dashboard** for product and user management, ensuring scalability and a seamless user experience.

Task Manager Web Application (MERN Stack) | [Deployment Link](#) | [Source Code](#)

- Developed a **multi-user** task management platform with secure **JWT**-based authentication for login and role-based access.
- Implemented **CRUD** functionality using **MongoDB**, **Express.js**, **Node.js**, and **React**, enabling users to manage personal tasks.
- Designed a **responsive interface** ensuring users can view, create, update, and delete only their own tasks seamlessly.

Full Stack Blog Application | [Source Code](#)

- Developed a **secure, multi-user** blog platform with **user authentication** (login/registration) and **CRUD functionality** for creating, reading, updating, and deleting blog posts.
- Built a **full-stack application** using **React.js** for the **front-end**, **Node.js** with **Express.js** for the **back-end**, and **MongoDB** for database management, ensuring scalability and efficient **data handling**.
- Designed a responsive and intuitive user interface with **Material-UI**, delivering a **seamless user experience** across all devices.
